The UI Data Summary is produced quarterly from state-reported data contained in the Unemployment Insurance Data Base (UIDB) as well as UI-related data from outside sources (e.g., Bureau of Labor Statistics data on employment and unemployment and U.S. Department of Treasury data on state UI trust fund activities). This data base is maintained by the Division of Fiscal and Actuarial Services, Office of Unemployment Insurance (OUI), U.S. Department of Labor.

This report is intended to provide the user with a quick overview of the status of the UI system at the national and state levels. Tables are provided for each state and many data items are repeated on [summary tables](#) which show all states together. The [glossary](#) gives the definition of each data item in the report. Except for reciprocity rates, UCFE and UCX data is not included. Except for covered employment and wage data, which have a reporting/processing lag, all the data refers to the same quarter. This quarter is shown on the front cover and is also the first column heading on each individual state page. The year and quarter are indicated by the notation CYyyyy.q (e.g. CY1995.4). For many data items, the report shows -- in addition to the latest quarter -- data for the latest twelve months, the highest and lowest quarters historically, and the state's rank among all states. If a state has failed to report for a particular time period, estimated data are used; however, if the time period extends too far for reasonable estimates, blanks are displayed instead.

Your comments and suggestions are welcomed. For further information please contact [Hyunchung Kim](#) or [Kevin Stapleton](#) at the Division of Fiscal and Actuarial Services, Room S-4524, 200 Constitution Ave., NW, Washington, DC 20210. If you want quarterly copies mailed to you, add your name to the [Data summary mailing list](#).

ATTENTION:

Now available on the Department of Labor, Office of Unemployment Insurance website, and by mail, is a new report called “**Significant Measures of State Unemployment Insurance Tax Systems**” (<http://www.oui.doleta.gov/unemploy/finance.asp>). This will be a yearly report containing a compilation of new and existing tax measures for each state, which is intended to provide users with the information necessary to evaluate and compare state UI tax systems. The report is produced by the Division of Fiscal and Actuarial Services in the Office of Unemployment Insurance and calendar years 2005 through 2013 are now available.

A rate computed by dividing the average monthly exhaustions by the average monthly first payments. To allow for the normal flow of claimants through the program, the denominator lags the numerator by six months, e.g. the exhaustion rate for CY 2012.2 is computed by dividing the average monthly exhaustions for the twelve months ending June 2012 by the average monthly first payments for the twelve months ending December 2011. (ETA 5159)
